LEAF.NGO

Lakshmi Educational Aid Foundation (LEAF)

“Education is the solution for most of the challenges that we are facing collectively as a species”

Introduction to Lakshmi Educational Aid Foundation (LEAF)

At Lakshmi Educational Aid Foundation (LEAF), we are driven by the vision that education is the most powerful tool to create transformative change. Established in 2020, LEAF is a registered NGO that operates at the intersection of Agriculture, Education, Empowerment, and Environment (AEEE). With a commitment to holistic community development, LEAF has impacted over 30+ schools and 2,000+ students across Karnataka and continues to expand its reach through innovative programs and initiatives.

During the 2023-24 academic year, LEAF undertook several impactful programs designed to address specific educational and societal needs:

1. **Granthagrah (Book Distribution Program):**
Distributed 10th-grade science and guidebooks across 15 schools in Karnataka, including Bengaluru Rural, Bengaluru Urban, Chikkamagaluru, Chikkaballapur, Chitradurga, and Hospet.
Impact: Benefited over 700 students, equipping them with essential academic resources.
2. **LEAFLAT (Soil Health Awareness Program):**
Conducted a soil health awareness program in Mudhol for 40 farmers, focusing on sustainable farming practices and agricultural knowledge.
3. **Ramanujan Ride (Mathematics Awareness Program):**
Aimed at promoting mathematics education, this program was organized in 10 schools for 9th-grade students.
Impact: Reached over 300 students and distributed 200 mathematics storybooks, fostering an appreciation for the subject.
4. **Road Safety Awareness Program:**
In collaboration with Yamaha, this program educated students in 3 schools on the importance of road safety.
Impact: Sensitized over 200 students on safe road practices.
5. **LEAF Talks (Science and Mathematics Trends):**
Inspirational sessions led by resource persons and scientists in 3 schools, aimed at encouraging students to explore emerging trends in science and mathematics.
Impact: Engaged 90 students through interactive discussions and motivational talks.
6. **Financial Education Program:**
A financial literacy session held in collaboration with UPES students, designed to empower students with essential financial knowledge.
Impact: Equipped 80 students with skills to manage personal finances effectively.

With certifications under CSR-1, 80G, and 12A, LEAF continues to collaborate with corporates, academic institutions, and government bodies to maximize its outreach and impact. Our programs are not just about education—they are about empowering individuals and communities with knowledge that inspires action and builds sustainable futures.

As we reflect on the achievements of 2023-24 in this annual report, we remain deeply committed to scaling our efforts and touching more lives in the years to come. Together, we can continue to make a lasting difference.

Managing Trustee's Note

As the Managing Trustee of Lakshmi Educational Aid Foundation (LEAF), it brings me immense pride and gratitude to reflect on our journey and the impact we continue to create in the field of education and beyond. I firmly believe that education is the solution to most of the challenges we face as humankind. It is the key to empowerment, awareness, and sustainable growth.

Being a teacher and the son of a teacher, I have always felt a deep gap between literacy and true education. The potential of education to address critical areas such as **Agriculture, Education, Empowerment, and Environment (AEEE)** inspired me to lay the foundation for LEAF. What began as a humble initiative by a small group of passionate individuals has grown into an organization dedicated to projects that matter deeply to society and students.

One of our significant milestones has been the development of the **10th Class Guidebook**, in collaboration with Soudhamini Publications. This initiative has touched the lives of more than 3,000 students across 35 schools in Karnataka, particularly helping them overcome challenges in Mathematics and Science. Through this project, In the academic year 2023-2024 we have reached over 1,000 students in rural villages near Sringeri, Mudhol, and Chitradurga. Each book distributed brings a positive impact, motivating us to continue our efforts. I extend my heartfelt gratitude to our supporters, **Number Educational Solutions (NES)** and **Sharada Charitable Trust**, for their unwavering encouragement.

The success of LEAF has been possible because of the dedication and commitment of every team member and chapter leader. Each year, we reach new heights thanks to their relentless efforts. I am especially grateful to:

- **Mr. Bharath**, our Director of Creative Education, who has been my pillar of support in every program we undertake.
- **Dr. Vijaya Chitnis**, leading our Mudhol chapter, whose leadership in the LEAFLAT program has been pivotal.
- **Mr. Vijay B**, who has been instrumental in distributing books and strengthening our networks with his invaluable guidance.
- **Mr. Laxmikant**, our Director of Environment Education, whose vision and efforts have shaped the LEAFLET project, a revolutionary initiative for environmental education.
- **Mr. Mahesh**, my fellow trustee, whose unmatched support and encouragement continue to be the backbone of our organization.
- **Mr. Gurudatt**, another trustee, whose guidance from my childhood has been a source of inspiration, from pursuing MSc Physics to starting this NGO. His steadfast belief in our mission has always been a driving force for me.

As we look ahead, LEAF is embarking on exciting new projects, and I am confident that with the support and encouragement of our dedicated team, stakeholders, and well-wishers. We will continue to make a meaningful difference. I sincerely thank every teacher, student, and school management who has partnered with us and supported our initiatives. Your trust and participation drive us to strive for excellence and to expand our impact year after year.

Together, let us continue to bring positive change through education.

With Gratitude,

K. R. Naveen

M.Sc Physics, VIT,

Managing Trustee, Lakshmi Educational Aid Foundation (LEAF).

Contribution to Rural Development and Education through LEAF

After completing my doctoral degree in Canada, I made the decision to return to my home country to serve the people and contribute to the betterment of rural communities. Coming from a farming family, I found a meaningful opportunity to work in rural development and agriculture through the Lakshmi Educational Aid Foundation (LEAF). Over the past year, I have focused on two significant initiatives: promoting sustainable farming practices and empowering education in remote areas.

1. Promoting Sustainable Farming Practices

India's arable land faces depletion due to rapid urbanization and the unscientific use of fertilizers and pesticides. To address this challenge, I, along with LEAF, prioritized creating awareness among farmers about **soil health** and **plant nutrition** to tackle issues such as salinity, waterlogging, and pH imbalance in soils.

Through the *Learning Agriculture Transformatively (LEAF-LAT)* program, we conducted farmer awareness camps across Bagalkot district, including villages such as Mundaganur, Rabakavi, Galagali, Ingalagi, Yadahalli, and Bidari. These programs focused on introducing sustainable farming methods and organic alternatives to chemical fertilizers, such as:

- **Phosphorus Rich Organic Manure (PROM)**
- **Potash Derived from Molasses (PDM)**
- Organic manures, city composts, biofertilizers, mycorrhiza, and biopesticides.

We not only shared information but also assisted farmers in procuring these materials and provided ongoing guidance. Over the past year, several farmers successfully transitioned to organic fertilizers, achieving sustainable yields, reducing soil degradation, and lowering cultivation costs.

Encouraged by this positive response, we are planning to establish a **soil testing laboratory** to provide farmers with accurate soil nutrient data. This initiative aims to promote scientific nutrient management, which will reduce input costs and protect soil microorganisms while enhancing sustainability.

2. Empowering Education in Remote Areas

In addition to agricultural efforts, I have worked to empower students in remote areas. Through school visits, we raised awareness about the importance of

education and introduced students to higher education opportunities.

Under the *LEAF Book Program*, we distributed **passing package kits** to 10 students over the past two years. These kits have received excellent feedback from schools in Bilagi and Mudhol Talukas, with students reporting improved academic performance. For example, last year, students using these resources achieved better exam results.

Building on this success, we plan to extend the program to more schools, distributing additional study materials such as dictionaries and other educational resources to government schools.

Looking Ahead

Through my work with LEAF, I have been able to contribute to both sustainable farming practices and access to quality education in rural areas. By addressing these pressing challenges, we aim to create lasting benefits for farmers and students alike.

Our vision is to scale these initiatives further, fostering sustainable development and a brighter future for rural communities.

With gratitude,
Dr. Vijaya Chitnis
Director, Lakshmi Educational Aid Foundation
(LEAF).

LEAF.NGO

Vision

“To create a transformative impact on society by fostering holistic development through education, empowerment, and sustainable practices, ensuring a brighter and more equitable future for all.”

Mission

- To empower students, farmers, and communities by delivering innovative and sustainable programs in agriculture, education, empowerment, and environment.
- To bridge the gap in educational access and quality by providing essential resources, skill-based training, and environmental awareness programs.
- To nurture critical thinking, creativity, and sustainable living practices for the betterment of individuals and society.

Key Highlights of LEAF

1. **Granthagrah (Book Distribution Program):**
Distributed 10th-grade science and guidebooks across 15 schools in Karnataka, spanning Bengaluru Rural, Bengaluru Urban, Chikkamagaluru, Chikkaballapur, Chitradurga, and Hospet.
Impact: Over 700 students benefited from this initiative.
2. **LEAFLAT (Soil Health Awareness Program):**
Conducted a soil health awareness program for 40 farmers in Mudhol, promoting sustainable farming practices and agricultural knowledge.
3. **Ramanujan Ride (Mathematics Awareness Program):**
A mathematics awareness program organized in 10 schools targeting 9th-grade students.
Impact: Reached over 300 students and distributed 200 storybooks.
4. **Road Safety Awareness Program:**
Organized in collaboration with Yamaha, this program was held in 3 schools.
Impact: Sensitized 200 students on road safety measures and practices.
5. **LEAF Talks (Science and Mathematics Trends):**
Inspirational sessions by resource persons and scientists conducted in 3 schools.
Impact: Engaged 90 students in discussions on emerging trends in science and mathematics.
6. **Financial Education Program:**
A financial literacy session conducted in one school in partnership with UPES students.
Impact: Empowered 80 students with essential knowledge about managing finances effectively.

These initiatives collectively underscore LEAF's commitment to empowering students, farmers, and communities through education, awareness, and skill development.

LEAF.NGO

A. Granthagrah Program

The **Granthagrah Program** by LEAF is a significant initiative aimed at providing *10th-grade science and mathematics guidebooks* to students in underserved government schools across Karnataka. This program is designed to help students enhance their learning experience, particularly in subjects as crucial as science and mathematics, which are pivotal for their academic success and future career opportunities.

How it Helps Students:

The Grandhagrah program ensures that students in underprivileged schools receive high-quality, comprehensive guidebooks that complement their curriculum. These guidebooks are carefully curated to cover all essential topics and provide additional resources, such as practice questions, explanations, and problem-solving techniques. By having access to such materials, students are better equipped to prepare for exams and improve their understanding of complex concepts in science and mathematics. This, in turn, boosts their academic performance and enhances their overall learning experience.

Impact and Reach:

- **Schools Reached:** The program has successfully reached **15 schools** across multiple districts, including Bengaluru Rural, Bengaluru Urban, Chikkamagaluru, Chikkaballapur, Chitradurga, Mudhol and Hospet.
- **Students Benefited:** Over **700 students** have benefited from this initiative, receiving the essential academic resources needed to excel in their 10th-grade science and mathematics exams.
- **Chapter Leaders Involved:** The program has been supported by numerous chapter leaders, who have played a crucial role in the distribution process and ensuring the successful implementation of the initiative in their respective regions.

Importance of the Program:

This program is crucial for several reasons:

- **Bridging the Educational Gap:** Many students in rural and underserved schools lack access to quality academic resources. The Granthagrah program addresses this gap by providing them with resources that would otherwise be unavailable.
- **Boosting Confidence and Performance:** The access to guidebooks has been shown to significantly improve students' confidence and performance. Teachers have reported that students are more engaged, perform better in assessments, and feel more prepared for exams.
- **Encouraging Academic Excellence:** By ensuring that every student has the tools they need to succeed, this program contributes to a culture of academic excellence, where every student has the opportunity to reach their full potential.

Success Story:

One success story from a school in Jayapura stands out: a teacher shared, *“Many of our students did not have access to quality guidebooks. The Grandhagrah program has greatly improved their confidence and performance in science.”* This feedback highlights the tangible impact of the program on students' academic journeys and underscores the importance of such initiatives in promoting educational equality.

In summary, the **Grandhagrah Program** is not just about distributing books—it's about empowering students to succeed, overcoming educational barriers, and helping them achieve their academic goals with the right resources. This initiative has the potential to transform the learning experience for countless students, equipping them with the knowledge and confidence to excel in their 10th-grade exams and beyond.

Glimpse

B. Ramanujan Ride: A Journey to Inspire Love for Mathematics

The **Ramanujan Ride**, organized in collaboration with **Perfect Riders – Yamaha**, is a unique and impactful mathematics awareness program designed to inspire students and ignite their passion for mathematics. This program, named after the legendary mathematician Srinivasa Ramanujan, combined engaging storytelling, interactive sessions, and outdoor exploration to make mathematics more relatable, enjoyable and inspiring for 9th-grade students across Karnataka.

Purpose of the Program

The Ramanujan Ride aimed to:

- **Create Mathematics Awareness:** Highlighting the importance of mathematics in everyday life, career opportunities and problem-solving.
- **Motivate Students:** By sharing the story of Srinivasa Ramanujan, the program showcased how perseverance and a love for learning can overcome challenges and achieve greatness.
- **Remove Math Fear:** Through interactive sessions, the program helped demystify mathematical concepts and built students' confidence in tackling complex problems.
- **Promote Practical Applications:** Emphasizing the role of mathematics in real-life scenarios such as technology, engineering, finance, and more.

The Ride and Locations

The program wasn't confined to classrooms. A team of math enthusiasts and educators undertook a ride on Yamaha bikes to various locations in Karnataka, including:

- **Gauribidanur**
- **Hossur**
- **Sringeri**
- **Chitradurga**

At each stop, the team visited schools to conduct sessions, distribute books, and engage students in discussions about the beauty and relevance of mathematics.

Program Highlights

1. **Storybooks Distribution:** Over **200 storybooks** based on the life and contributions of Srinivasa Ramanujan were distributed to students. These books served as both educational resources and inspirational tools to encourage love for mathematics.
2. **Interactive Sessions:** Activities like math puzzles, real-life problem-solving scenarios, and career guidance talks made the learning process fun and engaging.
3. **Career Guidance:** Students learned about the significant role mathematics plays in diverse fields such as engineering, computer science, data analytics, architecture and more.

Impact

- **Schools Covered:** 10 government schools across four districts.
- **Students Reached:** Over **300 students** participated in the sessions, gaining renewed enthusiasm for mathematics.
- **Building Confidence:** Students reported feeling more confident in solving mathematical problems, with many expressing excitement about applying math concepts in their daily lives and future studies.

1. **Empowering Students:** By breaking down complex ideas into simpler concepts, the program enabled students to see mathematics as a tool rather than an obstacle.
2. **Bridging the Gap:** The program reached schools in semi-urban and rural areas, providing resources and motivation where they are most needed.
3. **Inspiring a Love for Learning:** The story of Srinivasa Ramanujan, a self-taught genius, inspired students to strive for excellence and appreciate the value of education.

Success Story

A student from Chitradurga shared, *"The interactive approach of this program made learning math fun. I feel more confident tackling maths problems now."* This reflects the program's success in transforming students' perspectives on mathematics and addressing the fear associated with the subject.

Conclusion

The **Ramanujan Ride** is more than a mathematics awareness program—it's a movement to transform how students perceive and engage with mathematics. By combining inspiration, education, and fun, the program has proven to be a powerful tool for fostering mathematical curiosity and confidence among students. Its impact resonates beyond the classroom, shaping the future of young minds and equipping them with the skills to succeed in an increasingly mathematical world.

Glimpse

C. LEAFLAT: Soil Health Awareness Program

The LEAFLAT (Learn Agriculture Transformatively) program is an initiative by the Lakshmi Educational Aid Foundation (LEAF) designed to create awareness about soil health among farmers. Conducted in Mudhol, the program emphasized sustainable farming practices, the importance of soil health, and the integration of traditional and modern agricultural methods. It represents a transformative approach to empowering farmers with the knowledge to improve crop yields while preserving the environment.

Why Awareness of Soil Health is Important

Soil health is the foundation of sustainable agriculture. Here's why it matters:

1. **Improved Crop Yields:** Healthy soil ensures better nutrient availability for crops, leading to higher productivity.
2. **Environmental Sustainability:** Maintaining soil health reduces the need for excessive chemical fertilizers, minimizing environmental degradation.
3. **Resilience to Climate Change:** Healthy soil can better retain water and nutrients, helping crops withstand extreme weather conditions.
4. **Economic Benefits:** Healthy soil reduces dependency on costly inputs like fertilizers and pesticides, lowering farming costs and increasing profitability.
5. **Food Security:** Healthy soil ensures consistent and quality food production, contributing to the overall well-being of communities.

Motto of LEAFLAT

The motto of the LEAFLAT program is: *"Healthy Soil, Sustainable Future."*

This reflects the program's commitment to promoting practices that protect soil health, ensure sustainability, and empower farmers with the knowledge to balance productivity and environmental conservation.

Why We Need LEAFLAT

The LEAFLAT program addresses pressing agricultural challenges:

1. **Depletion of Soil Fertility:** Excessive use of chemical inputs has degraded soil quality, leading to reduced productivity.
2. **Lack of Awareness:** Many farmers lack access to knowledge about sustainable practices and soil health management.
3. **Declining Crop Yields:** Poor soil health directly impacts the quantity and quality of agricultural produce.
4. **Need for Balance:** Modern techniques often overlook the benefits of traditional farming wisdom. LEAFLAT integrates both approaches to maximize benefits.
5. **Sustainable Agriculture:** Ensuring that future generations inherit fertile and productive land requires immediate action and awareness.

Key Activities of the Program

1. **Workshops on Soil Health:** Farmers were educated on understanding soil composition, nutrient management, and organic farming practices.
2. **Promotion of Sustainable Practices:** Emphasis on crop rotation, reduced chemical use, and organic manure to maintain soil fertility.

3. Integration of Traditional and Modern Methods: Encouraging farmers to adopt modern scientific tools while valuing traditional knowledge.
4. Demonstrations: Practical sessions on soil testing and interpretation of soil health reports.
5. Distribution of Resource Materials: Leaflets, manuals, and other educational materials were provided to support continuous learning.

Impact

- Farmers Engaged: The program directly engaged 40 farmers from Mudhol, equipping them with actionable knowledge to improve their farming practices.
- Enhanced Crop Health: Farmers reported healthier crops and better yields after applying sustainable methods taught during the program.
- Empowered Community: The initiative fostered a sense of empowerment among farmers, encouraging them to take proactive steps towards soil conservation and sustainable farming.

Success Story

One of the farmer from Mudhol shared their experience:

"Understanding soil health has changed the way I approach farming. My crops are healthier, and I'm seeing better results. The methods I learned through LEAFLAT have reduced my costs and improved my income."

This success story exemplifies the program's potential to transform farming practices and uplift rural communities.

Conclusion

The LEAFLAT Soil Health Awareness Program is a vital step toward sustainable agriculture. By educating farmers about the importance of soil health and equipping them with practical solutions, the program is fostering a culture of responsible farming. As LEAFLAT continues to expand its reach, it holds the promise of transforming agriculture across Karnataka, ensuring a sustainable and prosperous future for farmers and the environment alike.

Glimpse

D. Road Safety Awareness Program: Educating Future Generations for Safer Roads

The **Road Safety Awareness Program**, conducted by the Lakshmi Educational Aid Foundation (LEAF) in collaboration with **Perfect Riders – Yamaha**, is a critical initiative aimed at promoting safe road practices among school students. By reaching out young minds, this program aspires to build a culture of safety and responsibility, ensuring safer roads and communities.

Importance of Road Safety Awareness in Schools

1. **Preventing Accidents:** With road accidents being a leading cause of injuries and fatalities, early education on road safety can significantly reduce risks.
2. **Building Responsible Citizens:** Instilling safe road habits in students ensures they grow up as responsible pedestrians, cyclists, and future drivers.
3. **Influencing Families:** Educating students often leads to a ripple effect, encouraging families to adopt safer road practices.
4. **Long-Term Impact:** Awareness at a young age can lead to lifelong adherence to traffic rules and safety measures.
5. **Promoting Community Safety:** Educated students contribute to creating a culture of safety, reducing the overall risk of accidents in their communities.

Program Highlights

1. **Interactive Sessions:** Students were taught the basics of road safety, including traffic signals, pedestrian rules, and the importance of wearing helmets and seat belts.
2. **Demonstrations:** Practical demonstrations on proper road crossing, helmet usage, and bicycle safety were conducted to make the learning process engaging.
3. **Practical Advice:** Students received guidance on recognizing road hazards, understanding vehicle blind spots, and the dangers of distracted walking or driving.
4. **Emphasis on Helmet Usage:** A key focus was placed on the importance of wearing helmets while riding two-wheelers and ensuring proper fit and certification.

Collaboration with Perfect Riders – Yamaha

The partnership with **Perfect Riders – Yamaha** added immense value to the program:

- **Expertise in Road Safety:** Yamaha's experience in promoting road safety brought credibility and depth to the sessions.
- **Practical Demonstrations:** Yamaha's team provided real-life demonstrations of safe riding techniques, vehicle maintenance, and the importance of safety gear.
- **Engaging Approach:** Their involvement made the sessions more dynamic and relatable for students, enhancing the program's impact.

Impact

- **Schools Reached:** The program was conducted in **3 schools**, engaging students from different backgrounds.
- **Students Sensitized:** Over **200 students** were educated on the importance of road safety, empowering them to adopt safe practices.
- **Safer Communities:** By fostering awareness in young minds, the program has contributed to building a safer and more responsible community.

A student participant shared:

"I now understand how important it is to wear helmets and follow traffic rules. I'll make sure my family does the same."

This statement reflects the transformative power of the program in creating awareness and encouraging behavioral change, not just among students but within their families and communities.

Why This Program Is Important

1. **High Risk for Youngsters:** Students often represent vulnerable road users as pedestrians, cyclists, or pillion riders. Educating them reduces their risk of accidents.
2. **Behavioral Change:** Awareness programs help shape safe habits and attitudes towards road safety early in life.
3. **Nationwide Relevance:** With increasing road traffic in India, initiatives like this are vital to achieving the goal of safer roads for all.
4. **Reducing Casualties:** Programs like this are a proactive step toward reducing road fatalities and injuries, particularly among young and impressionable audiences.

Conclusion

The **Road Safety Awareness Program**, in collaboration with **Perfect Riders – Yamaha**, is a vital initiative that addresses a critical social issue. By educating students about road safety, the program not only equips them with essential knowledge but also instills a sense of responsibility that extends to their families and communities. This initiative highlights LEAF's commitment to creating safer, more aware communities and underscores the importance of partnerships in driving impactful change.

Glimpse

E. LEAF Talks: Exploring Trends in Science and Mathematics

LEAF Talks is an initiative by the Lakshmi Educational Aid Foundation (LEAF) aimed at inspiring school students to pursue Science, Technology, Engineering, and Mathematics (STEM) fields by introducing them to the latest trends and advancements in science and mathematics. The program connects students with resource persons, scientists, and experts, providing a platform for knowledge-sharing and sparking curiosity.

Why LEAF Talks Is Important

1. **Inspiring Future Innovators:** By exposing students to emerging trends, LEAF Talks inspires them to envision careers in STEM fields.
2. **Bridging the Knowledge Gap:** Many students in underserved schools have limited access to information about advancements in science and mathematics. LEAF Talks fills this gap by bringing experts directly to them.
3. **Promoting STEM Careers:** STEM fields are critical for national development and innovation. Early exposure encourages students to consider these fields for their future.
4. **Demystifying Complex Concepts:** Through engaging and relatable talks, students develop a better understanding of challenging topics, reducing their fear of science and mathematics.
5. **Encouraging Critical Thinking:** The sessions motivate students to ask questions, think critically, and explore solutions for real-world problems.

Program Highlights

1. **Inspirational Talks by Experts:** Scientists and resource persons delivered motivational sessions on:
 - Dr.Kulkarni : The role of mathematics in space exploration.
 - Dr: Somasekara: Emerging technologies like Artificial Intelligence and Robotics.
 - Mr.Laxmikanth: Environmental science and its impact on daily life.
2. **Interactive Sessions:** Students were encouraged to ask questions and engage with the speakers, making the sessions more dynamic and impactful.
3. **Real-World Applications:** The talks emphasized how science and mathematics are used to solve everyday problems, from healthcare to technology.
4. **Career Guidance:** Students learned about career opportunities in STEM fields and the importance of pursuing higher education in these areas.

Impact

- **Schools Reached:** The program was conducted in 3 schools in Bengaluru Urban, Bengaluru Rural, and Chikkaballapur districts.
- **Students Engaged:** Over 90 students participated, showing increased interest in STEM subjects and careers.
- **Enhanced Understanding:** Students gained insights into cutting-edge topics like space exploration, renewable energy, and the importance of mathematical thinking in problem-solving.

Success Story

A student from Bengaluru Urban shared:

"The talk on space exploration was fascinating. I now dream of becoming a scientist."

This reflects how LEAF Talks is not only informative but also transformative, encouraging students to dream big and work towards achieving their goals.

Why LEAF Talks Matters

1. **Reducing Fear of STEM Subjects:** By simplifying complex topics, the program helps students overcome their fear of science and mathematics, making learning enjoyable.
2. **Encouraging Curiosity:** The program fosters a culture of curiosity and lifelong learning, essential for personal and professional growth.
3. **Building a Knowledge Society:** Through awareness and education, LEAF Talks contributes to building a society that values scientific thinking and innovation.
4. **Supporting Underserved Schools:** Many schools lack resources for advanced STEM education. LEAF Talks bridges this gap, ensuring equal opportunities for all students.

Conclusion

LEAF Talks: Science and Mathematics Trends is more than just a series of lectures; it's a platform to inspire, educate, and empower students to explore the vast possibilities within STEM fields. By connecting students with experts and introducing them to emerging trends, LEAF Talks equips them with the knowledge and motivation to dream big and work towards a brighter, innovative future.

Glimpse

F. Financial Education Program: Shaping Lives and Society

In today's world, financial education is not just a skill—it is a necessity. It equips individuals with the knowledge and confidence to make informed and effective financial decisions, laying the foundation for a stable and prosperous society. Understanding the importance of this, LEAF conducted a **Financial Education Program** for the academic year 2023-24, empowering students at Goutham Government Aided School in partnership with UPES students.

Why Financial Education Matters

1. **Essential Life Skill:** Financial literacy helps individuals navigate life with confidence, teaching them how to save, budget, invest, and manage debt effectively.
2. **Breaking the Cycle of Poverty:** Many families, especially in underserved communities, face financial hardships due to a lack of basic financial knowledge. By educating children early, we empower them to make sound financial decisions that can uplift their families and communities.
3. **Building a Financially Aware Society:** A financially literate society is one that can contribute to the economy more effectively, reduce dependency on debts, and avoid financial fraud.
4. **Career Preparedness:** As students grow, financial literacy helps them understand the value of money, plan their careers wisely, and pursue opportunities that align with their financial goals.
5. **Reducing Financial Anxiety:** Learning about finances early on reduces fear and stress around money management, helping children feel more secure and prepared for their future.

Program Overview

- **Location:** Goutham Government Aided School.
- **Partnership:** Conducted in collaboration with students from the University of Petroleum and Energy Studies (UPES).
- **Students Reached:** 80 students from grades 9 and 10 participated in this hands-on program, tailored to introduce them to essential financial concepts.

Program Highlights

1. **Basic Financial Concepts:** Students were introduced to concepts such as budgeting, saving, and the importance of setting financial goals.
2. **Interactive Learning:** Activities like mock budgeting exercises, savings plans, and real-life problem-solving scenarios made the sessions engaging and practical.
3. **Banking Fundamentals:** Students learned about the importance of banks, how to open a bank account, and the value of saving for emergencies.
4. **Awareness of Loans and Debt:** Discussions around managing credit responsibly, avoiding debt traps, and understanding interest rates.
5. **The Power of Investment:** A basic introduction to investment tools such as fixed deposits and mutual funds, giving students a glimpse of how to grow their savings over time.
6. **Understanding Financial Security:** Emphasis on concepts like insurance, pensions, and long-term financial planning.

Impact

- **Empowered 80 Students:** The session left a lasting impression on students, many of whom were learning about financial literacy for the first time.

- **Practical Application:** Students shared examples of how they planned to implement their new financial knowledge in daily life, such as saving pocket money, creating budgets, or even discussing financial concepts with their families.
- **Ripple Effect:** Teachers and parents noted that students were discussing what they learned, sparking financial awareness beyond the classroom.

A Success Story

One 9th-grade student remarked, *“Before this program, I thought money was just something you spend. Now, I know how important it is to save, plan, and think about the future. I’ve already started budgeting for my school expenses!”*

Challenges and Aspirations

While the program's impact at Goutham Government Aided School was significant, it was limited to just one school due to resource constraints. However, the overwhelming positive feedback has inspired us to expand this initiative in the next academic year.

Looking Ahead: Expanding the Reach

LEAF is committed to taking financial education to more schools across Karnataka. Our goals for the upcoming academic year include:

1. **Scaling Up:** Targeting at least 10 schools, including both government and private institutions, to empower more students with financial literacy.
2. **Community Engagement:** Partnering with local organizations, universities, and financial experts to reach underserved areas.
3. **Curriculum Development:** Enhancing the program to include advanced concepts like entrepreneurship, digital payments, and financial technology.
4. **Sustainable Learning:** Providing students with financial education booklets and resources they can refer to long after the session.

Why This Program is Crucial

1. **Lifelong Impact:** Teaching children about finances at an early age ensures they develop habits that will benefit them for a lifetime.
2. **Economic Empowerment:** Financially literate youth grow into financially responsible adults, contributing positively to the nation’s economy.
3. **Addressing Financial Illiteracy:** Many students in rural and underserved communities lack exposure to financial knowledge, putting them at a disadvantage. This program bridges that gap.
4. **Career and Personal Success:** Financial literacy helps students understand the relationship between education, careers, and earning potential, motivating them to pursue higher education and meaningful careers.

Conclusion

The **Financial Education Program** is not just about teaching students how to manage money—it’s about shaping a generation that is confident, empowered, and capable of making informed financial decisions. By expanding this program, LEAF aims to create a ripple effect, spreading financial literacy far and wide, transforming not just individual lives but the fabric of society itself. With the right support and resources, we are confident that this initiative can become a model for financial education across Karnataka and beyond.

5. GOVERNANCE AND COMPLIANCE

LEAF.NGO

Governance and Compliance at Lakshmi Educational Aid Foundation (LEAF)

Lakshmi Educational Aid Foundation (LEAF) upholds a transparent and efficient governance structure to ensure its programs are executed ethically, effectively and in compliance with regulatory standards.

Board of Trustees

The foundation is governed by a dedicated team of trustees, each bringing their expertise and commitment to the organization's mission:

1. **K. Raghavendra Naveen**

- **Designation:** Managing Trustee
- **Profile:** An educationist and visionary leader, Raghavendra Naveen oversees LEAF's operations, ensuring the foundation stays aligned with its mission to empower communities through education and sustainable development.

2. **P. Mahesh**

- **Designation:** Trustee
- **Profile:** A Senior Software Engineer with a passion for technology-driven solutions, Mahesh contributes his technical expertise to enhance LEAF's projects and digital outreach.

3. **P.S. Gurudatt**

- **Designation:** Trustee
- **Profile:** An Agri Scientist with extensive experience in sustainable agriculture, Gurudatt guides LEAF's agricultural programs like LEAFLAT, focusing on empowering farmers with knowledge and innovative practices.

Certifications and Compliance

LEAF is fully compliant with the legal and regulatory frameworks governing Non-Governmental Organizations in India. Its certifications and accreditations reflect its credibility and dedication to transparency:

- **CSR 1 Certification:** Enables LEAF to receive Corporate Social Responsibility (CSR) funding from corporates to expand its impact.
- **80G Certification:** Offers tax exemption benefits for donors, encouraging contributions to LEAF's initiatives.
- **12A Certification:** Establishes LEAF as a tax-exempt charitable organization, ensuring all funds are utilized for public benefit.
- **NGO DARPAN Certification:** Registered with the NITI Aayog's NGO DARPAN portal, enhancing collaboration with government bodies and corporate partners.

Commitment to Governance

LEAF prioritizes governance as a cornerstone of its operations to ensure:

1. **Transparency:** Clear communication of its activities, finances and impact to stakeholders.
2. **Accountability:** Regular monitoring and evaluation of programs to ensure resources are used efficiently and effectively.
3. **Ethical Practices:** Adherence to the highest ethical standards in all initiatives and collaborations.

By maintaining robust governance and compliance frameworks, LEAF ensures that its resources are utilized for maximum impact, reinforcing its reputation as a trusted partner in education, agriculture, empowerment, and environmental initiatives.

Looking Ahead

With a strong governance structure and necessary certifications, LEAF is well-equipped to expand its reach and impact. By leveraging its board's expertise and compliance credentials, the foundation continues to build partnerships, secure funding, and implement transformative programs for the betterment of society.

Future Plans for Lakshmi Educational Aid Foundation (LEAF)

Lakshmi Educational Aid Foundation (LEAF) is dedicated to expanding its impact across various sectors through innovative programs, strategic collaborations, and community-focused initiatives. The foundation's vision for the future emphasizes empowering individuals and transforming communities through education, sustainable practices, and skill development.

1. Education Initiatives

- **Expanding LEAFLET (Learn Environment Transformatively):**
LEAF aims to implement the LEAFLET program in 100 additional schools across Karnataka and Goa, promoting environmental awareness and sustainable solutions among students.
- **Enhancing Science and Mathematics Education:**
Organize more **LEAF Talks** and fairs focusing on emerging trends in STEM, benefiting students from both government and private schools.
- **Digital Learning:**
Introduce digital platforms and e-learning tools for programs like Vedic Mathematics and Handwriting to reach students in remote areas.
- **Supporting Underserved Students:**
Distribute 10,000 guidebooks and learning materials to underserved schools under initiatives like **Grandhagrah (Book Distribution Program)**.

2. Agriculture and Rural Development

- **Scaling LEAFLAT (Soil Health Awareness Program):**
Conduct soil health workshops in 10 additional districts, impacting 1,000+ farmers with training on sustainable farming practices.
- **Farmer Empowerment through LEAFLAT:**
Provide farmers with tools to integrate traditional wisdom with modern agricultural techniques, improving productivity and sustainability.
- **Launching Farmer Resource Centers:**
Establish centers to offer hands-on training, knowledge sharing, and access to resources like soil-testing kits and market guidance.

3. Environmental Sustainability

- **Expanding Environmental Programs:**
Scale up initiatives like tree plantation drives, waste management awareness campaigns, and water conservation projects across Karnataka and neighboring states.
- **Collaborating with Schools for Green Campuses:**
Encourage schools to adopt eco-friendly practices and implement projects for natural resource management as part of the **LEAFLET** initiative.

4. Skill Development Programs

- **LEAF Skill Development Centers:**
Expand the network of LEAF Skill Development Centers to new locations, offering essential courses like Vedic Mathematics, Handwriting, and Public Speaking to thousands of students.

- **Public Speaking and Leadership Skills:**

Launch specialized programs to equip students and youth with communication and leadership skills for future success.

- **Women Empowerment through Vocational Training:**

Introduce skill-based training programs for women in rural areas to promote financial independence and entrepreneurship.

5. Expanding to Goa and Other States

- **Goa Chapter Development:**

Collaborate with **ECRO** to implement projects like Vedic Mathematics, Handwriting Courses, and environmental programs in Goa. Establish a shared office and secure CSR funding for long-term operations.

- **Reaching More States:**

Scale LEAF programs to other states, including Maharashtra, Andhra Pradesh and Tamil Nadu, tailoring initiatives to meet regional needs.

6. Collaborations and CSR Partnerships

- **Strengthening Corporate Partnerships:**

Secure long-term CSR funding for initiatives through partnerships with organizations passionate about education, agriculture, and environmental sustainability.

- **Government Collaboration:**

Work closely with government bodies to align LEAF programs with national priorities and ensure wider outreach.

7. Events and Awareness Campaigns

- **Science and Mathematics Fairs:**

Organize large-scale fairs annually, focusing on hands-on learning, creativity and scientific innovation.

- **Road Safety Awareness Programs:**

Expand programs like the **Road Safety Awareness Program** in collaboration with organizations like Yamaha to reach more schools.

- **Community Outreach:**

Host workshops, seminars, and campaigns to raise awareness about issues like sustainable living, soil health, and education.

8. Research and Development

- **Program Impact Assessment:**

Develop a robust mechanism to measure the impact of ongoing programs and use the data to improve and scale initiatives.

- **Innovative Teaching Methods:**

Invest in research to create innovative, engaging, and effective teaching methods for students in rural and urban schools.

Conclusion

LEAF's future plans reflect its commitment to creating a better tomorrow through education, sustainability, and empowerment. With a strong governance framework, skilled team, and growing partnerships, LEAF is poised to make a lasting impact on students, farmers, and communities across India.

Conclusion Note by K. Raghavendra Naveen, Managing Trustee of LEAF

This year has been an incredible journey for the Lakshmi Educational Aid Foundation (LEAF). Alongside Mr. Bharath S., Director of Creative Education, and the dedicated LEAF team, I personally visited over 30 schools across Karnataka for various programs and projects. From Bengaluru to the remotest parts of the state, our interactions always culminated with government school students, whose smiles radiated pure joy and gratitude. Witnessing the appreciation in the eyes of teachers and school management filled us with a profound sense of purpose.

Although our resources and finances might seem modest, the impact we have created is profound and enduring. Our administrative and operational expenses are borne personally by Mr. Bharath and me, and the fulfilment we derive from these efforts goes beyond any material measure. It is a deeply transformative experience that enriches our lives in ways words cannot fully capture.

I extend my heartfelt gratitude to every chapter leader and the entire LEAF team for their unwavering support. Together, we have achieved milestones that inspire us to aim higher. As we look forward to the next academic year, we are already planning ambitious initiatives to expand our reach and deepen our impact.

LEAF is not just an organization; it is a living system, nurtured with a part of my soul. I wish the very best for this entity, knowing that its legacy will continue to touch lives and shape futures for years to come.

With gratitude and determination,

Karanam Raghavendra Naveen
Managing Trustee,
Lakshmi Educational Aid Foundation (LEAF),
Yelahanka New Town,
Bangalore.

Conclusion Note by Bharath S, Director, LEAF

Dear Friends,

As the Director of Creative Education, I firmly believe that one doesn't need to be rich to serve society; all it takes is a rich heart to support fellow human beings. It has been an immense privilege to work towards strengthening the school system with genuine pleasure and dedication. The satisfaction I derive from serving others motivates me to continue this journey.

Looking ahead, we are excited to introduce creative programs like Drawing, Handwriting, and more in select schools for the upcoming academic year. These initiatives aim to nurture creativity and essential skills among students.

I would like to extend my heartfelt gratitude to all our friends and chapter leaders for their unwavering support and encouragement. Together, we can continue to make a meaningful difference in the lives of students and the education system as a whole.

With sincere thanks,

Bharath S
Director of Creative Education,
